## Our OSHC philosophy

We, as educators, collaborate with children in our care and the wider community to create vibrant programs and opportunities which empower each child to explore, grow and learn through meaningful life experiences, social connections, play and leisure.

## How will your child be cared for?

The safety, health and well-being of our children, families and staff are of the utmost importance and priority to 3Bridges. Rest assured COVID-19 protocols are still in place and updated in consultation with the Department of Education and Health. Our centres have large grounds for children to play and be 'physically distant' whilst continuing to socialise with peers.

## About us

We have more than 40 years combined experience in partnering with local communities to provide an array of solutions that make a positive difference. By doing so we build happier, healthier, connected, educated and enriched communities.
